## The 16th Nordic Conference of Computational Linguistics

### University of Tartu, Estonia

**Workshops: May 24, 2007**

- The 2nd International Workshop on Typed Feature Structure Grammars
- Building Frame Semantics Resources for Scandinavian and Baltic Languages
- Workshop on Semantic Content Acquisition and Representation
- New Developments in Constraint Grammar

#### Language Tutorial

**Typological Singularities of Estonian and Their Role in Computer Analysis**

***Haldur Õim (University of Tartu)***

Faculty of Mathematics and Computer Science,  
University of Tartu, J. Liivi 2

#### LOCAL ORGANIZATION COMMITTEE

Mare Koit (co-chair), University of Tartu  
Tiit Roosmaa (co-chair), University of Tartu  
Urve Talvik, University of Tartu  
Heli Uibo, University of Tartu  
Kadri Vider, University of Tartu

**Main conference: May 25 - 26, 2007**

#### Invited Talks

***Diana F. McCarthy (University of Sussex)***

– Evaluating Automatic Approaches for Word Meaning Discovery and Disambiguation using Lexical Substitution

***Walter Daelemans (University of Antwerp)***

– Text Analysis and Machine Learning for Stylometrics and Stylogenetics

#### Parallel Paper Sessions

- Parsing and Translation
- Multilingual Resources and Translation
- Speech Technology
- Treebanks
- Information Extraction and Summarization
- Phonetics and Speech
- Machine Learning
- Dialogue

#### Poster Sessions

#### Parallel Student Sessions

- Spoken Language Processing
- Multilingual Resources and Translation
- Natural Language Processing

Conference Centre of the Tartu University Library, W. Struwe 1

#### PROGRAM COMMITTEE:

Joakim Nivre (chair), Växjö University and Uppsala University  
Helena Ahonen-Myka, University of Helsinki  
Daniel Hardt, Copenhagen Business School  
Kristiina Jokinen, University of Helsinki and University of Tartu  
Pierre Nugues, Lund University  
Stephan Oepen, University of Oslo, NTNU Trondheim and Stanford University  
Patrizia Paggio, University of Copenhagen  
Torbjørn Svendsen, NTNU Trondheim
